

CAPITAL DISTRICT FENCING SCHOOL

July 2024

POLICY REGARDING REQUESTS FOR INDIVIDUAL LESSONS

With the increase of interest in the Olympic Fencing, the number of requests for individual lessons coming from our fencers and the newcomers keeps growing. As a result, our coaching staff is facing an additional work load that changes from week to week. Every attempt is being made to ensure that all instruction requests have been accommodated, but coordination of our efforts in this field becomes necessary.

To ensure that the demand for fencing instruction has been met and all coaches face a balanced work load, **all new requests for individual lessons (AKA private lessons) must be channeled through me.** That streamlining policy will help to better coordinate and manage our coaching resources. **This individual coaching policy takes effect July 9th, 2024 .**

The existing coaching schedule remains in place without changes and/or revisions. Fencers currently taking individual lessons from any of our coaches will stay with them until they wish to terminate their individual training.

Cub members compliance with the above policy will be greatly appreciated.

L. Mark Dolata
Owner and the Head Coach
